

FIRST HILL

IMPROVEMENT ASSOCIATION

I apologize to the First Hill Improvement Association for not responding to your questionnaire. It landed in my campaign inbox on the day ballots were sent out and got buried when we shifted our focus to voter contact. I care about the First Hill Improvement Association's priorities and I worry I wouldn't do them justice without researching the issues identified in the questionnaire as they relate specifically to First Hill -- especially the details of the PRAP, the City's actions so far, and what I would do if elected. If I make it through the primary on August 3rd, I will take advantage of a moment of calm and fill out the questionnaire to inform you of my positions and how I plan to best represent the people of First Hill. In the meantime, my website goes into extensive detail about my policy proposals on many of the issues you're concerned about: <https://www.saraforcitycouncil.com>. I ask for your forgiveness and appreciate your grace
